Subject: Vikram Sarabhai Space Exhibition – ISRO
Ref: Letter of Shri Balvant Parekh Science City, Dated: 02/02/2019

Shri Balvant Parekh Science City is working on popularizing science and creates scientific approach and temperament in children since 2010. As a part of our objective we have organized Vikram Sarabhai Space Exhibition- developed by ISRO Ahmedabad to celebrate National Science Day. Along with ISRO exhibition, there will be Brain Gym and various other science projects of Shri Balvant Parekh Science City. Children will be benefited to talk with ISRO scientists.

This exhibition is more beneficial for students of Std. 7 onwards. If your school likes to participate in this program, please book the date and time well in advance on our contact number. Entry will be given only to registered school. Schools are welcome to give time, date and slot to manage the program effectively.

Date : 20th & 21st Feb., 2019

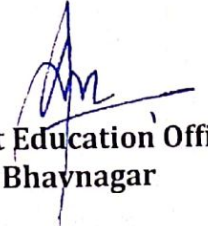

Time : 8.00am to 5.00pm

Place – Shri Balvant Parekh Science city,

Behind Yashvantraai Natya Gruha, Mahila college, Ambawadi, Bhavnagar

For more information : Mrs. Mayabenkuvrani: 9426220126

- Note:**
1. Time required to see Vikram Sarabhai Space Exhibition is minimum 1:30 hours
 2. Each school can enrol maximum 250 students. Every 50 students need at least one science teacher.
 3. Students should be in School uniform and I-card.
 4. Vehicle Parking is at Mangala Mata temple common plot. (Near by Science City)

In response to your request for arranging mobile exhibition at your Institute, we are pleased to inform you that VSSE-SAC-ISRO will arrange exhibition at your institute on 20th & 21st 16th February (Wednesday & Thursday)-2019.

About mobile exhibition: The mobile exhibition of Vikram Sarabhai Space Exhibition (VSSE) will have set of about 20 static panels related to Remote Sensing satellites and Communication Satellites, their applications, about Chandrayaan-1 / Mars mission, models of camera of mars Mission, satellite images; scale down models of launch vehicles like PSLV & GSLV, various satellite models of INSAT and IRS, OCM, Aryabhata, RISAT, etc. and a working model showing satellites orbiting around earth. In addition to these there will be various video documentaries on launching and Mars mission. For students of 11th & 12th Science there is also a video on how to join ISRO. Apart from all above mechanical components, parts used in satellites are also displayed. ISRO's Geo portal-BHUVAN website will be demonstrated during the exhibition.

Senior scientist/Engineers from Space Applications Centre will remain present during the exhibition event & interact with visitors/students and satisfy their queries related to Space Science & technology.

Please give adequate publicity of the event so that large no. of students can take visit of the exhibition and get aware of ISRO and Space Science. You may co-ordinate with DEO/DDO schools for the visit of various schools.

Regards,

H B Pandya
